

We are pleased to announce the  
**Second Analysis Mathematica International Conference**  
Budapest, 29 July - 02 August, 2024.

The conference is to be held at the HUN-REN Alfréd Rényi Institute of Mathematics, Budapest, Hungary. This event is to promote the 50-years-old journal

# ANALYSIS MATHEMATICA

and provides a good opportunity for professors and young researchers, current or future authors to present their results and to foster possible collaborations.

Topics include: Approximation theory, Constructive theory of functions, Functional analysis, Operator theory, Harmonic analysis, Real analysis, Measure and integration, Function spaces, Complex functions, Nevanlinna theory, Analytic number theory and Special functions.

## Invited speakers

Catalin Badea  
Richárd Balka  
Christian Berg  
Frederik Broucke  
Zoltán Buczolich  
Gregory Debruyne  
Serhii Favorov  
Ágota G. Horváth  
Alexander Goncharov

Dmitry Gorbachev  
Bernhard Haak  
Gergely Harcos  
Katsuya Ishizaki  
Gergely Kiss  
Dávid Kunszenti-Kovács  
Miklós Laczkovich  
László Lempert  
József Lőrinczi

Ákos Magyar  
Máté Matolcsi  
János Pintz  
Vladimir Protasov  
Eszter Sikolya  
Vladimir Stepanov  
Jasson Vindas  
Dániel Virosztek  
László Zsidó

We would be happy to meet you in Budapest and kindly ask you to disseminate the information about the conference among your colleagues and students.

For more information and registration, as well as regular updates please check the website of the conference:
